The older people in the population are most susceptible and need the help of others to minimize the spread of infection. Of course, the critical and essential work force must keep providing service in the best interest of everyone. A Trackdown "Thank you" and sincere salute to all those critical workers keeping us safe.

## Women in California Cities From San Francisco to San Jose

Trackdown's list of women city government professionals in California cities continues in this issue. This is the 33rd segment of the Trackdown list. Those found working in the cities alphabetically from the City & County of San Francisco to the City of San Jose are included in this issue.

There are many highly educated, qualified and dedicated professional women serving California cities. The list is impressive. Our effort addresses the rhetorical question: *Where are the women in city management?*

Of course, we miss deserving folks from time-to-time. Again, we apologize to anyone we miss. It is not always completely our fault. The failures of others to post complete profiles makes it difficult to be comprehensive. Please believe that we try our best to include all worthy individuals.

## WEBINAR ON IMPLEMENTING SENATE BILL 998 WATER SHUTOFF PROTECTION ACT

As of April 1, 2020, all public water systems must comply with the Water Shutoff Protection Act for residential customers. This Act makes three significant changes to how your agency operates. First, the Act extends the period residential customers can be delinquent on their bills before your agency can shut off water service, and creates new notice requirements before terminating service. Second, the Act requires that your agency create alternative payment arrangements, and offer them to certain qualifying customers. Finally, the Act mandates that your agency adopt a written policy describing these procedures. This webinar will explain exactly how your agency can comply with SB 998, and recommend procedures to effectively implement it. As part of the webinar, we will provide a sample SB 998 policy and analyze it section-by-section. Your agency will walk away from this Webinar with a policy it can adopt, and an understanding of how to best implement it moving forward.

Cost: \$1,000 per agency for a stand-alone, attorney-client privileged webinar.

Contact **Bill Weech** at [bweech@chwlaw.us](mailto:bweech@chwlaw.us) or (213) 542-5705 to schedule a webinar for your city or county.

### LETTER:

Another great edition of the newsletter (May Special). I'm doing well with this whole shut-in thing.

That picture of Dan [Heil] (I hadn't seen it in a long time) really brought back memories. He was always such a cheerful guy. The first time I met Dan, I had just left El Monte. Tripepi had invited me out on one of those 2-night fishing boat trips off San Diego, with Dan, Ray Harris, Andy Lazzaretto and a bunch of other guys. Linda was also on board. It was a great trip, full of good fellowship, took my mind off my troubles. Anyway, I really didn't spend much time talking with Dan, but the guy never forgot my name; always ask me how I was doing; treated me like an old buddy every time I saw him. We did, at some point, become good friends, but I admired his ability to put people at ease, treat them like family. What a guy, I miss him!

Hope I can make the June POL, if we're not all still under lock and key by the Governor.
